

PASTORAL CARE POLICY - 2009

“To educate young people properly, we must love them; we must love them all equally. To love young people is to devote yourself completely to teaching them and to take all the means that a keen imagination can think of in order to form them in gospel in values.” **St Marcellin Champagnat**

RATIONALE

Pastoral Care at Red Bend Catholic College reflects the life and teachings of Jesus Christ and seeks to answer the call to discipleship, as exemplified by Mary. The practice which flow from this source, recreates a learning and teaching environment which is filled with faith and hope, is just and compassionate and is culturally inclusive of all who comprise the community.

This community is one in which:

- all members can engage in teaching and learning activities that respond to the emerging needs of young people and the future needs of society;
- all members abide by the principles of cooperation, enabling full participation in, and ownership of, this community;
- the spiritual, psychological and physical development of each individual is nurtured in a secure and supportive model of family;
- the cognitive and emotional intelligence of each individual is enhanced through practices, which promote the development of the whole person;
- partnerships are promoted, allowing each individual to know that he/she belongs, is connected to both a peer group and supportive adults, and is valued member of that community;
- In witnessing to Christ, all members are free to choose how they respond to the challenges of life. This community cherishes choices which support and develop the Christian ethos of the College.
